Frontend React.js Developer with 1.5 years of experience focusing on building responsive interfaces for medical products. Proficient in React.js, MUI, and collaborating with backend developers for API integration. Trained in full-stack technologies like ASP.NET Core and ReactJS during a 4-month internship.

WORK EXPERIENCE

React Front End Developer, Comtronus LLP, Visakhapatnam, AP   Oct 2022 – Nov 2023
Project: Labgen - Laboratory Information System(LIS)

- Developed responsive and dynamic web pages utilizing ReactJS, Redux and Material UI (MUI).
- Collaborated with back-end developers to integrate front-end components with APIs.
- Translated Figma designs into functional web interfaces.
- Utilized Git and GitHub for version control.
- Met Scrum deadlines consistently, ensuring timely delivery of project milestones.
- Leveraged React Developer Tools to detect and address performance bottlenecks, enhancing system responsiveness.
- Applied expertise in JavaScript to write Playwright scripts, contributing to the testing process and ensuring smooth development.
- Improved UI performance by identifying bottlenecks, leveraging technologies like Context API and React Hooks.
- Proficient in using Google search, Stack Overflow and AI tools to efficiently troubleshoot and solve a wide range of technical and non-technical problems independently.

Internship, Comtronus LLP, Visakhapatnam, AP   June 2022 – Oct 2022

- Completed a 4-month internship, gaining proficiency in full stack web development including REST API, ASP.NET Core and React.js.
- Quickly acquired knowledge transfer on the project and promptly started contributing during the internship.
- Maintained existing code and successfully resolved numerous bugs, enhancing overall project stability.
